Press Note.

According to the provisions of the Harvest Order, 1949, free movement of any rationed foodgrains from or into a rationed area within the State for *bona fide* consumption of a person or his family was prohibited. It was considered that such a restriction caused hardship to travellers arriving into the rationed areas on business, etc. Government have therefore in their Notification No. S. 8018—C. 73-49-87, dated the 28th March 1950 permitted a *bona fide* traveller to carry without a permit, foodgrains not exceeding two seers per adult and one seer per child for *bona fide* personal consumption from one rationed area to another rationed area or to any non-rationed area within the State and *vice versa*. Further, he is also allowed to carry, without a permit, foodgrains not exceeding ten seers in all for his personal consumption or for his family from one non-rationed area to another non-rationed area within the State.

Press Note.

For the last few months several reports are appearing in the Press on the alleged activities of some anti-social elements at Mayasandra and round about villages in Magadi Taluk, Bangalore District. Mayasandra has a population of about 1 000, Vokkaligars forming the majority while Jains, Adikarnatakas and a few Muslims form the minority. The main profession of the inhabitants of the village is agriculture and many of the Jains own garden lands.

There was unfortunately some trouble between the Vokkaligars and Jains for some time past resulting in local disturbances and clash between the two communities. Police help was rendered and the situation was brought under control. Some persons who are alleged to be at the bottom of these troubles and the rowdy activities in Mayasandra and surrounding villages have been proceeded against by the Police and charge sheets have been placed in Cr. No. 42—48-49 under Sections 147 and 144 of the Indian Penal Code in the Court of the First Class Magistrate, Closepet, on 13th March Sri Harthi Adirajaiah, a member of the Jain community of the place, has been doing a lot of propaganda work alleging atrocities by Vokkaligars and others and has been holding confer- State and passing resolutions to the effect that there has been no rule of law in these villages. He has also addressed several letters and sent printed pamphlets not only to this Government but also to the Government of India and members of the Jain community even outside the State as for instance, those at Mangalore, seeking their sympathies in his propaganda work.

All the communications received from Sri H. Adirajaiah have been duly acknowledged from time to time by this Government and action when necessary has been taken also. His contention that he has not received any acknowledgments to his letters is not borne out by facts. He has also threatened that he would take to fasting in his grievances are not redressed.

Detailed investigations have been conducted as to the truth or otherwise of the allegations of Sri Harthi Adirajaiah and as recently as 13th March 1950 the Inspector-General of Police has also visited the Mayasandra Village and personally made enquiries. Sri Harthi Adirajaiah, it is reported, was not present at the time of the enquiry at the village. As far as enquiries go, Government feel that there has been gross exaggeration by him regarding the affairs of the village. No incidents have happened since the troubles referred to and necessary police arrangements to maintain peace and order in the village have been duly made.

Press Note.

Dated 5th April 1950.

Hitherto a holder of land situate in the Mysore State but residing in the Madras State could not transport foodgrains grown on his lands to the place of his residence. As this entailed hardship to such a holder, the Government of Mysore have, with the concurrence of the Government of Madras, empowered the Deputy Commissioners of the Districts in which such land is situate to permit the transport of such quantity of rationed foodgrains from out of the yield of such land as is required for one year or until next harvest, whichever is earlier, for *bona fide* consumption of his family as certified by the concerned authority having jurisdiction over the place in which the holder resides, subject to the condition that he surrenders to Government the entire surplus grains assessed to him. The Harvest Acquisition Order has accordingly been amended.

nd the infection continues to persist in the town proper, in Harohalli and a few other villages round about. Over ninety er cent of the population of the town had been inoculated a ew months ago and the second round of inoculations is going n intensively in the town and in the infected villages. The edical and health staff in the area has been reinforced. The District Health Officer is camping in the town.

The Director of Public Health, the Superintendent, Bureau f Epidemiology, and the District Educational Officer, Bangalore District, visited Kankanhalli yesterday in order to inspect the arrangements made for the adequate protection of the students going to the town for the ensuing Middle School examination. In company with the Vice-President of the Municipality and the local authorities, they saw the places reserved for the housing of the students. It was found that majority of the students will be accommodated in Kariappa High School buildings and the remaining number will be accommodated in the Lingayet Mutt and in another hostel. Special arrangements have been made to post Sanitary Inspectors with necessary equipment and staff at each of the places reserved for the accommodation of the students, in order that they may attend wholly to the sanitation of these places and to inspect the food and water to be given to the students. Trench latrines have been constructed and Gammexyne-spraying has been conducted, wherever necessary, in order to control the fly nuisance. The local doctors have already taken the precaution of going round the villages and inoculating most of the students that are going to Kankanhalli for the examination. Arrangements have also been made to provide boiled water to the students in the Examination hall.

The District Health Officer and other necessary staff will be at Kankanhalli for the duration of the Middle School Examination. The Superintendent, Bureau of Epidemiology, will also be visiting the place before the examination and camp there, if necessary for a few days to satisfy himself that all arrangements are carried out as instructed.

HEALTH REQUIREMENTS FOR PERSONS VISITING OR LEAVING INDIA BY AIR OR SEA.

The following Note giving the health requirements for persons visiting or leaving India by air or sea, issued by the Ministry of Health, Government of India, is published for general information :—

(a) *For entry into India.*

1. (i) The Government of India have placed no health restrictions on persons entering India by sea or air except in regard to yellow fever. Health documents are not, therefore, demanded in respect of any infectious diseases other than yellow fever from persons who are in transit (irrespective of the nature and duration of transit) or who seek entry into India. All persons are advised in their own interest to be protected against small-pox and cholera according to international requirements and to possess valid certificates of vaccination and inoculation.

(ii) Persons who are infected or suspected to be infected [illegible] cholera, typhus (louse-borne) small-pox, chicken-pox, cerebrospinal meningitis, diphtheria, relapsing fever, influenzal pneumonia or who have been in contact with any such disease are liable to undergo such sanitary measures as may be applicable to them on arrival. In such cases, it may be noted that small-pox vaccination certificate becomes valid 14 days after vaccination and its validity lasts for a period of 3 years; cholera inoculation certificate becomes valid 7 days after inoculation and its validity lasts for a period of 6 months. Cholera inoculation should, however, be taken in two doses with an interval of 7 to 10 days between the two doses and the certificate becomes valid 7 days after the administration of the second dose. The certificate should preferably be obtained from a Government or Municipal institution on the prescribed international form duly signed by a medical officer in Government or Municipal employ indicating his designation and bearing the stamp of the office of issue. Certificates issued by private doctors are also acceptable provided they are countersigned by a medical officer in a Government or Municipal institution as indicated above.

Special Provisions relating to Yellow Fever.

(a) Arrivals by air.

2. Any person arriving in India by air is detained in isolation on arrival in India for a period upto nine days after arrival if he has been exposed to the risk of yellow fever infection and is not protected against the disease through a previous attack of yellow fever or by satisfactory inoculation.

(b) Arrivals by sea.

3. The requirements in respect of persons arriving in India by sea are not based on the provisions of the Indian Port Health Rules, 1938, but are observed by the health authorities at Indian Ports.

(b) *For leaving India.*

4. All persons leaving India for a place beyond India by sea or air will be medically examined by the Port Health Officer or the Airport Health Officer concerned. All persons in whom such medical examination discloses symptoms of any of the infectious diseases mentioned in para 1 above will be prohibited from embarking in any vessel or aircraft. Further, all persons in such relation with a person displaying the symptoms of one of the diseases referred to above as to render them liable to transmit the infection in question will be prohibited by the health officer from embarking. These provisions do not, however, apply to a person who is suffering from an infectious disease and who is to be transported in an aircraft specially allocated for the purpose.

5. No health restrictions are, however, applicable to persons travelling by sea or air, exclusively between India and Pakistan, since India is maintaining *status quo* with Pakistan since partition in regard to quarantine restrictions.

Aircraft infected with yellow fever or suspected of yellow fever infection.

(i) An aircraft is regarded as infected with yellow fever if it has started from or alighted in any yellow fever infected area and subsequent to such starting or alighting, has not obtained a certificate of disinsectisation from an authority specifically approved by the Government of India for this purpose, stating that the aircraft, after leaving or alighting in the yellow fever infected area and before arriving in India, has been disinsectised. At present, the following authorities are so approved :—

(a) Ministry of Health of the United Kingdom,
(b) United States Public Health Service.
(c) The Government of the Netherlands,
(d) The Government of the Anglo-Egyptian Sudan,
(e) The Government of Pakistan,
(f) The Government of Egypt,
(g) The British Military Administration, Eritrea,
(h) The Government of Norway.

Pending the completion of certain formalities, the Government of India have also agreed to accord provisional recognition to certificates of disinsectisation issued by the following authorites:—

(a) The Government of Senegal, (Dakar),
(b) The Government of France (Orly, Le Bourget and Marseilles-Marignane),
(c) The Government of Switzerland.

CERTIFICATES OF INOCULATION AGAINST YELLOW FEVER WILL NOT BE REQUIRED FROM PASSENGERS FROM A NON ENDEMIC AREA WHO START IN AN AIRCRAFT AFTER A "APPROVED" DISINSECTISATION AND ARRIVE IN INDIA WITH OUT THE AIRCRAFT HAVING PASSED THROUGH AN ENDEMIC YELLOW FEVER AREA EN ROUTE.

(*d*) An aircraft shall be regarded as suspected of yellow fever infection, if, not being infected with yellow fever, it arrives in India from the West.

(*e*) An aircraft infected or suspected to be infected with yellow fever shall, on entering India from a place outside India, land only at Bombay airport, Santa Cruz, provided that this requirement shall not apply to an aircraft which has already obtained health clearance at Karachi Airport.

7. Provisions relating to yellow fever applicable to persons arriving in India by sea.

All persons and crew on board a vessel which has started from or has touched at any port on the East Coast of Africa between the Northern-most limit of Eritrea and the Southern-most limit of Tanganyika should be in possession of valid certificates of inoculation against yellow fever. Such inoculations must have been performed not less than 15 days before embarkation in the case of a person—

(i) who is embarking between the said limits, or

(ii) who is inoculated against yellow fever in an endemic area, or

(iii) Who has entered an endemic yellow fever area within 10 days of inoculation.

In all other cases the inoculation must have been performed not less than 9 days before the arrival of the vessel within the said limits. If there is on board a vessel arriving from or touching at any port within the limits mentioned above any person who is not in possession of a valid certificate of inoculation against yellow fever which satisfies these requirements the vessel will be regarded as suspected of yellow fever infection and may be subjected to quarantine measures before pratique is given.

8. Special provisions (relating to small-pox and cholera) applicable to persons leaving India by sea or air for Iraq, East Africa, South Africa and Saudi Arabia.

In addition to the medical examination referred to in para 4 of the Note, all persons proceeding to East Africa, South Africa, Iraq and Saudi Arabia are required to be in possession of valid certificates of vaccination against small-pox and inoculation against cholera signed or countersigned by a medical officer in Government or Municipal employ.
